## Maximize Your SAP Investment ASAP

Despite all the talk about “digital transformations” and “modernization,” the IDC found that most organizations (55%) are still in the early stages of cloud maturity.<sup>1</sup>

This eBook is for those who can see the competitive advantage in that statistic. It reveals how emerging technologies—combined with the power of Microsoft and NetApp’s Azure NetApp Files—can unlock the full value of your SAP investment.

## What's Inside

### Learn the mistakes most SAP customers make

Discover why 7 in 10 SAP customers are still running SAP’s legacy application (and why you shouldn’t be one of them).<sup>2</sup>

### Dare to compare SAP partners

See a head-to-head comparison to decide whether your SAP partner is equipped to achieve your transformation goals.

### See the performance benchmarks yourself

Anybody can promise a “fast SAP transformation.” But not everyone has the benchmarks to back it up (you’ll find ours on page 14).
